## TENANT HOUSES ARE BADLY NEEDED

BUSINESS MEN MAY TAKE UP IMPORTANT QUESTION TO DIXON.

Sterling Business Men Subscribed \$51,500 Stock in B. & L. for This Purpose.

The Young Men's Business association will in all probability take hold of a question that has been of paramount importance in Dixon, and the satisfactory settlement of which means much to the future of the city—the scarcity of tenant houses in the city. It has been reported that people are forced to move away from Dixon because there are not enough suitable houses for rent, and to remedy this condition the young men will study the question and doubtless will provide some scheme whereby more of such homes will be built.

A campaign waged in Sterling about two weeks ago to deal with similar condition in that city is of interest. At a noon-day luncheon of the members of the commercial club in that city, \$51,500 worth of stock in the Building & Loan association was subscribed. Two plans were open to the investor. He was given the opportunity of taking up stock at \$75 a share, the stock to mature in six years, when it would draw \$100 per share; or he could subscribe for the stock at \$1 per share per month and draw out his \$100 a share in about six months.

With the amount subscribed the Building & Loan proposes to erect a large number of moderate priced houses for renting purposes, and the Sterling business men believe they have remedied the conditions that have confronted them.

## TRAMPS ATTACK N. W. FREIGHT CREW

DARING ASSAULT MADE BY HOBOES AT AGNEW THURSDAY AFTERNOON

A bunch of fifteen or more hoboies jumped on the Sterling-Clinton way freight near Agnew Thursday afternoon and gave the crew a terrible beating. Word was sent to Sterling and assistance arrived on the scene. Eleven of the hoboies were captured after a hard chase and locked in a box car, and brought to Sterling and locked up in the city jail. The crew was badly handled.

### SERVES NOTICE ON JUNK MAN.

Commissioner J. D. Van Bibber, who was appointed by the council to secure the removal of Rubenstein's junk from the river bank between Galena and Hennepin avenues, yesterday served legal notice on Rubenstein to remove the stuff within one week or the city will begin proceedings against him.

### VISITING FRIENDS

C. B. Ankeny and wife of Blue Earth, Minn., are here for several weeks' visit with friends and relatives. Mr. Ankeny speaks well of the country he has located in and is well satisfied with his new home. He brought with him some corn and apples, which are on display at the Dixon National bank.

### ACQUIRES PAPER.

Miss Simpson, postmistress of New Decatur, Ala., held a mortgage of \$1,000 on the Twin City Telegram, an afternoon newspaper published at New Decatur. It was sold under the mortgage to the postmistress, she being the highest bidder.

### FARM SOLD WELL

Ben Murphy sold a farm of 80 acres for \$20,000, netting him the sum of \$250 an acre. The purchase was made by William Kersten who owns a farm joining this land. The property is south of Rochelle in Reynolds township.

## ANNOUNCE CHANGE IN THIS DIVISION

CHICAGO AND NORTHWESTERN CUTS OFF BIG CHUNK OF GALENA DIVISION.

### STUDY WORK ELSEWHERE

Sterling Business Men Subscribed \$51,500 Stock in B. & L. for This Purpose.

For the first time in half a century the Northwestern has divided the Galena division of its system and taken off quite a chunk of the great territory.

The cutting off of a part of the division comes from the opening of the branch running from Nelson to South Pekin and from this time on the branch will be operated as a separate division and will be known as the Peoria division.

The change of the division will bring about 200 trainmen who are now employed on the Peoria division back into the Galena division and some changes in running crews are looked for.

The crews of the Galena division will be largely recruited from the Esplanade division where the men on the ore trains have been working half time.

Nelson will be the northern terminal of the new division and South Pekin will be the division headquarters.

Bids will be up for the runs in a few days and it is expected many of the older men on the Galena division who are eligible will seek runs on the new division.

## THREE CAMP HOPE MEN ARE PARDONED

GOV. DENEEN FREED THREE "GOOD BEHAVIOR" MEN TODAY.

Record Clerk William Wickersham of the Joliet penitentiary brought joy to Camp Hope when he arrived there this morning, for with him he brought proof from Governor Dunne that he would recognize the efforts of the men to "make good." The proof was contained in a big envelope: three pardons for "good behavior" men bringing untold joy to them and encouragement to the others. The three men who were pardoned are:

Sidney Lufsky, clerk of the camp, sentenced for forgery.

Isaac Richardson, colored, sentenced for forgery.

Russell Hemmer, sentenced for forgery.

## SISTER OF LATE HUGH FLANNERY DIES

MRS. GIDEON HOLLEM OF ROCKFORD PASSED AWAY IN CHICAGO.

Word has come to relatives in this city of the death of Mrs. Gideon Hollem, a sister of the late Hugh Flannery of Dixon, at Augustana hospital, Chicago, following an operation. Mrs. Hollem was a resident of Rockford. Her husband and three children survive her. She was a talented musician and a member of the Mendelssohn club and had a large circle of friends who mourn her demise.

Mrs. Hugh Flannery and son Frank of Dixon leave this afternoon to attend the funeral in Rockford.

### WORKED FOR T. J. MILLER LONG AGO

H. D. Short and son and Rev. and Mrs. Clark of Troy Grove are here today visiting friends and transacting business. Mr. Short, who is now a successful merchant at Troy Grove, was employed by T. J. Miller about 25 years ago.

### ED FISHER HAD BAD PARALYTIC STROKE

Edward Fisher, the Hennein avenue barber, suffered a stroke of paralysis this morning, the severity of which required his removal to the hospital for treatment.

Dr. J. C. Maxwell of Sterling was here today.

## CRIMINAL CASES IN CIRCUIT COURT OVER

PROBABILITY IS THAT COLLINS WILL PLEAD GUILTY, IS RUMOR.

### STUDY WORK ELSEWHERE

Sterling Business Men Subscribed \$51,500 Stock in B. & L. for This Purpose.

It is not probable that any more criminal cases will be tried during the present term of circuit court, for it has been intimated on good authority that Collins, the fellow who is alleged to have collected commissions from C. M. Sworm, the local monument man, on bogus contracts, will plead guilty to the charge of obtaining money under false pretenses, on which charge he was indicted by the grand jury. The other criminal case, a charge of rape against Eugene Phillips, will in all probability be continued until the next term as Attorney Wm. Leech of Amboy, who has been engaged to defend him, will ask for a continuance on the ground that he was not retained until after the term started.

**Find for Plaintiff.**

The jury in the Martin vs. Macca-bees case returned a verdict yesterday for the plaintiff, the heirs of the late Charles Guyot, and assessed the full amount of insurance, \$2,000, against the order. In all probability the case will be appealed unless a new trial is granted. The old jury was discharged for the term following this verdict and Monday the jurors for the fourth and fifth weeks will report. They are:

John Ullenswang, Alto  
B. Chambers, Alto  
J. P. Honeycutt, Amboy  
Josiah Brown, Amboy  
R. S. Brown, Amboy  
A. C. Avery, Amboy

### OPENING AT Y. TONIGHT.

A large crowd of young men is expected at the Y. M. C. A. building this evening to make the opening of the gymnasium and bowling alleys a success, the opening this evening marking the beginning of regular gym class work and sports. There will be music and refreshments and other features to prove of interest. The gymnasium classes will start next week.

### MONSTER SILO.

Howard Martin of near Gap Grove has completed one of the largest silos in this part of the state. It is 13 feet in diameter and 36 feet high. Mr. Martin has it filled to the top with silage. The silo is made of cement blocks.

### COUNCIL TO MEET

The city council will meet in regular session Monday morning and as this will be the first meeting of the month the bills for September will be acted upon.

### NEWSPAPERMEN TO MEET.

The Illinois Daily Newspaper association will hold a meeting at the LaSalle Hotel, Chicago, on Tuesday, Oct. 21.

### HOUSECLEANING.

Now is the time to think of housecleaning. You will need white paper for pantry shelves which you will find at the B. F. Shaw Ptg. Co. for 1c a sheet.

### HAS RIGHT PRINCIPLES

Some time ago H. M. Pindell, editor of the Peoria Journal, was selected for the post of ambassador to Russia, and some Illinois democrats oppose his confirmation on the ground that he does not always support the candidates of his party and site the fact that he is not supporting the democratic candidate for the Supreme court bench from his district. Mr. Pindell pleads guilty to this charge. He declares that in his whole career as an editor he has never been a partisan in judicial elections. He always supported the man he thought best qualified for the place. Today his paper is supporting a republican for Supreme court justice, a democrat for circuit court judge, and a progressive for probate judge of Peoria county. Under no conditions will Pindell get into line for the two democratic candidates he is fighting. In our humble judgment Editor Pindell is the right man to send as ambassador to Russia.

### ELI IS BETTER.

Eli Rosenthal, who has been ill, is able to be out again.

## BLUE ISLAND AND DIXON PLANTS WILL SOON BE JOINED

I. N. U. IS MAKING PROGRESS IN CONNECTING GENERATING PLANTS.

### STUDY WORK ELSEWHERE

Sterling Business Men Subscribed \$51,500 Stock in B. & L. for This Purpose.

By October 15 Dixon will be connected with the Blue Island electrical plant, one of the largest in the state, a part of the Illinois Northern Utilities company's holdings, and shortly after this connection is made the Freeport plant, recently purchased by the company, will also be connected with the system.

The result of the great work being done will render all individual plants a part of a great system, in which a company will be able to offer and incomplete failure of any one unit will no longer hamper or discontinue the service in any city. As a result the sure steady and reliable power in any city in which they have a franchise, and the connection of all the plants will render a uniform amount of power over the big territory covered by the company.

Since acquiring the properties in this part of the state the I. N. U. has accomplished much in rehabilitating many plants that were absolutely useless and in connecting all of the institutions into one big system. The work has required the installation of miles of high tension lines and the placing of many transformers, but when completed it will enable the company to proceed with the contemplated improvements here, which the officials state will surely be made.

### WILL PROVIDE UNIFORM SERVICE

Blue Island Plant is Largest in Cook County—Other Good News.

The ball game in Compton yesterday, which 600 howling fans watched from the edges of their chairs, was a big attraction and had much to do with the success of the day.

The Mendota Regulars were confidently planning on a massacre of "Rip" Tracey and his bunch of Dixon Browns and for the first half of the game it looked as if they were to have good going, but the "Big Cherry Picker" as they dubbed him, and his crew woke up before the final chapter and put over enough runs to bring home the contest, 8 to 7. The lineup:

### MISS DORA BREED HAD BAD RUNAWAY

SUFFERED A BROKEN WRIST IN ACCIDENT ON FRIDAY AFTERNOON.

Miss Dora Breed, 819 North Galena avenue, suffered the fracture of a small bone in her right wrist, and other painful bruises when she was thrown from a buggy in which she and Miss Esther Brink were riding on North Galena avenue yesterday afternoon. The horse, without apparent provocation, started to run and threw the young ladies out. Fortunately neither was seriously hurt.

### TEACHERS HURRY TO TAKE THE EXAM

ADDITIONAL TESTS FOR FIRST GRADE CERTIFICATES WILL BE ISSUED SOON.

Several additional prospective teachers took the examination at the office of County Superintendent L. W. Miller today, a number of them being from Ogle county. There is a desire on the part of candidates to take the first grade examination before July 1, because at that time the new school law will make many additional requirements from teachers before they are granted a first grade certificate.

### MOVE TO IOWA.

Mr. and Mrs. P. Lally of Marlon township have moved to a farm near Marlon, Ia., where they will make their future home.

### TAKES INTEREST IN FEED BARN

John Fane has purchased a half interest in the feed barn and livery business of Earl Watts and will hereafter assist in the conduct of the business.

### LOST MONEY.

Lee Lindsey, an employee of the Utilities company, lost \$25 between Hennepin avenue and Commercial alley. A reward will be paid for its return.

### FOOT BALL GAME THIS AFTERNOON

MORRISON HIGH SCHOOL PLAYING D. U. H. S. ON LOCAL GRIDIRON.

The Morrison high school football team, accompanied by many students arrived here this morning and this afternoon are playing the D. U. H. S. team in the first game of the local season at Athletic park. Reports are that a fair crowd is in attendance.

The lineup:

The game was hit and run and was full of errors on both sides. Huber pitched well and Tracey did neat work. Kruger got a two bagger and Short Woodyatt binged a nice one for three sacks. Waldorf of Mendota walloped a long one over the left fielder's head for a round trip. Killian secured a three base hit and Tracey stole everything in sight, including the home plate.

Mendota is figuring on another contest with the Browns on the Compton diamond soon. John Valle managed the Dixon team. Archer of Compton umpired.

### APPOINTMENTS NOT DUE UNTIL MONDAY

THE METHODIST CONFERENCE SPENDS MUCH TIME ON BOOK CONCERN.

Freeport, Oct. 4.—Special to Telegraph — It is not probable that the appointments of pastors in the Rock River conference will be made before Monday, as every indication is that the discussion on the affairs of the Methodist Book Concern will occupy the entire day.

**Gift to Supt. Moore.**

During the Friday morning session Rev. Stone of Dixon asked permission to speak. Dr. Stone is a first class lykester and kept his hearers in a merry mood for some time before stating his purpose. When he came to his point he told Rev. Moore, who was sitting near him, that there was awaiting him at home a new roll top desk and chair, a token of the love and esteem in which the retiring district superintendent is held by his fellow clergy.

Mr. Moore responded in his usual happy vein, thanking the ministers for their token of loyalty and love.

At the close of this incident, which somewhat cleared the tense atmosphere occasioned by the report of Dr. Arnold, and for which the jokes and merriment of Mr. Stone appeared as an antidote, the names of those to be admitted to the conference were read and approved.

## JACOB WAGNER ROBBED OF \$1,800 AT DIXON DEPOT

THREE STRANGERS JOSTLE ASHTON MAN AS HE BOARDS C. & N. W. TRAIN.

### STUDY WORK ELSEWHERE

Sterling Business Men Subscribed \$51,500 Stock in B. & L. for This Purpose.

Jacob Wagner of Ashton was "touched" for a certificate of deposit for \$1800 while he was boarding the 11:08 passenger train at the Northwestern depot this morning, and although three strangers who answered the description furnished by Mr. Wagner were apprehended and carefully searched, the certificate was not found and they were released as there was not sufficient evidence to warrant holding them.

As Mr. Wagner was boarding the train the three men, all strangers, alighted and jostled him to such an extent that he feared he had been robbed, and accordingly as soon as he got on the train he investigated and found that the certificate, which was on the Ashton bank, had been taken from him. Deputy Sheriff Harrison was also on the train and Mr. Wagner related the story to him, and upon reaching Ashton Mr. Harrison notified the local authorities, who arrested the three strangers at the Nachusa House. However, as the certificate could not be found they were released. Mr. Wagner stopped payment on the paper.

### FINE BALL GAME.

The ball game was the greatest attraction of the day, for it drew by far the biggest crowd, 600 paid admissions at the gate. Dixon won the game in a close and brilliant contest, a report of which will be found in another column.

### THE SPEAKING OF THE AFTERNOON

was the more important part of the program, inasmuch as Senator Frank Funk, former progressive candidate for governor of Illinois, and Mrs. Virginia Brooks Washburne, the "Joan of Arc" of West Hammond, Ind., were the principal speakers.

A crowd of about 200, which was gathered during the afternoon, that many also were imported from Calcutta. Rat skins have long been used for purses, gloves and similar small articles, and are proving very useful for these purposes.

### DEMAND FOR LUXURIES.

Government estimates show that luxuries are coming into this country at the rate of \$1,000,000 a day, and if to stand firm, predicting great things for the party; attacked both the public and democratic parties, of the past, present and future of the progressives, etc. He said, in answer to those who might say they would not come into the party because of Theodore Roosevelt, "My God, friends, Roosevelt isn't the whole progressive party; won't live always; won't always be at the head of things." He declared himself in favor of the recall of judges and judicial decisions, but said it would be a long time before those propositions became laws and that there would be ample time to consider and find any possible defects there might be.

Mr. Funk termed as "utter foolishness" the talk of amalgamation between the parties.

### VIRGINIA BROOKS.

Virginia Brooks Washburne, a very prepossessing young lady who surely has a mind of her own, pleased her hearers with a discussion of many, and every vital political problems. She spoke with pride of the act of the Illinois lawmakers in enfranchising the women of the state. Mrs. Washburne told the women present—there were many in the crowd—that they had assumed a great responsibility and that they should step forward and accept it. Among the questions she declared the women would have to settle were alcoholism and taxation. She said that a remedy for the township assessor problem would be to have each assessor work in a township other than the one he was elected from, so he would have no political aids to serve, and suggested that the members of the board of review be paid a higher salary. She declared that the present board of review system is malicious. The vice problem, which she has studied deeply, could be handled more sensibly, so she declared, by placing

## PROGRESSIVES SPOKE IN COMPTON FRIDAY

MANY WELL KNOWN SPEAKERS ADDRESS COMPTON CITIZENS.

### STUDY WORK ELSEWHERE

Sterling Business Men Subscribed \$51,500 Stock in B. & L. for This Purpose.

Friday was a big day in Compton, comparatively speaking, and probably every resident and a number of visitors spent the afternoon and evening there, heard some good speaking by well known and able speakers, saw a dandy ball game, enjoyed the moving pictures put on in the street free by the Compton merchants once a week, listened to excellent band music all day and evening and attended a good dance before going home.

Everybody had a good time, the merchants of Compton seeing to that for, with commendable spirit and forethought, when told the progressives wanted a picnic they seized the opportunity and put their shoulders to the wheel to make a good thing out of it for Compton, and they succeeded. Men of all parties boosted with a will, and the result was success.

The Phidian Art club will meet with Mrs. Eustace Shaw Tuesday afternoon at her residence in Bluff Park at 2:30. The President will give the annual address. Mrs. L. E. Edwards will sing and Mrs. Andrus will give a talk on her trip through Spain.

**Met With Mrs. Buckaloo**  
The Missionary society of the Zion church met with Mrs. C. C. Buckaloo Thursday afternoon. There were about twenty five present, among them being a number of invited guests. Mrs. Switzer and Mrs. Helander conducted the work of the afternoon, but nearly all the ladies took some part. Mrs. Buckaloo served a tempting lunch. The ladies decided to hold their next meeting which takes place Nov. 6th at the parsonage.

**To Meet Monday**  
The Young Women's Foreign Missionary society of the M. E. church will meet Monday evening with Mrs. Freeman Ankney, 224 W. Chamberlain street. All who can should attend as this is the first meeting of the year.

**Invincibles Will Meet**  
The members of the Invincibles will hold a special meeting Monday afternoon with Miss Gladys Steel.

**Will Spend Sunday Up River**  
Mr. and Mrs. William Eckert, Mr. and Mrs. Eugene Rueland, and Mr. and Mrs. William Ford will spend Sunday up the river.

**Was Great Success**  
The seniors of the south side high school held a most successful carnival and social last evening in the high school gym. The social was largely attended and everyone heartily enjoyed the good time afforded all. The feature of the evening which provided much amusement for all was the band of four pieces. The band made a decided hit. The seniors are also pleased over the financial success of the affair.

**Parlor Club.**  
The Parlor club will meet Monday afternoon in Masonic hall with Mrs. E. H. Rickard and Mrs. Schuely as hostesses.

**For James Blackburn.**  
James Blackburn was the involuntary host at a surprise party arranged by about thirty of his friends at his home on Crawford avenue last evening. The affair was in celebration of his 3th birthday and he received a number of useful remembrances. The evening was spent with cards and music and an oyster supper was a feature.

**Instituted Lodge.**  
A large number of Rebekahs of the local lodge went to Lee Center last evening and instituted a lodge of Rebekahs there. The local members were treated to a sumptuous supper and their drill team put on the work in excellent style. There were 80 members initiated and the work was not completed until after 12 o'clock, after which a banquet was served. The local members cannot say sufficient in praise of the treatment received. They did not return home until early morning.

### Dramatic Notes

**PRINCESS THEATRE.**  
The House of Bondage will be the special feature at the Princess Monday night. This is a drama of Puritan days in which a girl is charged with witchcraft, escapes from prison and returns to the settlement to give warning of an Indian attack, losing her life in the ensuing battle, also a great scene of a storm at sea a man is hurled from the top of the mast of a ship to the deck, with tense and dramatic situations and thrilling battle scenes.

**FAMILY THEATRE**  
The program at the Family theatre is excellent and received much comment. The Trivoli Trio in a musical number receive great applause and respond with fine encores. Russell and Radcliffe have also taken well in latest song hits and fancy dancing. Manager Slothower has been fortunate in securing the 4-reel special feature, Last Days of Pompeii, for next Wednesday night and it will doubtless prove an excellent picture.

**DAVE LEWIS PLAYERS**  
Starting Oct. 9 the Dave Lewis Players will appear at the opera house for four days' engagement with daily matinee, except Sunday. The company comes here with the best of references and present a play that has always been shown at \$1.50 prices but this season the popular price scale will prevail and they charge 10, 20 and 30 cents. The company numbers 25 and carries a carload of scenic and electrical effects. "Don't Lie to Your Wife" is one of the funniest plays ever written and the audience usually leaves the theatre with aching sides. Pretty girls and catchy music are interspersed with the brilliant comedy of the piece, assuring all of an evening's entertainment long to be remembered.

**THE GIRL AND THE BARON.**  
One of the best musical offerings of the season, The Girl and the Baron, will be seen at the opera house Tuesday evening with the entire original New York company. The attraction is recommended by press and public from the cities where it has appeared.

Every song is original and up to the minute. The costumes are gorgeous, some being Parisian creations. The scenery is grand and the electrical effects are novel. The big Broadway number which shows Broadway in action at midnight, is one of the most original features ever attempted on any stage.

Miss Eva Martin, prima donna, is due much credit for her good singing. She makes a hit. The big beauty chorus can sing and dance and has been selected with care in order to give The Girl and the Baron the most beautiful chorus with any road show out of New York this season. Seats on sale at Campbell's.

**A DECIDED TREAT**  
Is the vaudeville bill now on the boards at the opera house. Last evening the house was well filled with pleased pleasure seekers, and it may be truthfully stated that no better bill has ever appeared to the Dixon theatre going public in the vaudeville line. La Farge as she (he) is billed is certainly one of the best impersonators it has ever been our pleasure to witness. His makeup is faultless, and he possesses a beautiful soprano voice which he uses to great advantage. He is a close second to Julian Eltinge and those who have seen the latter named actor, will realize what that means. As an encore to repeated calls last evening he sang an Irish ballad dear to many hearts, and one of old ones so well liked, "Aileen Alana." The Three Amerses comedy acrobats are topplers in their act and received several hands, which they richly deserved. Van & Davis a song and dance team are above the average, and were especially good in the dancing acts. The Seven Meoddy Maids proved an entertainment in themselves and are alone worth the price of admission. The soprano possesses a voice of rare sweetness and knows how to use it. A young harpist quite won her audience and the violins, flute, horns, bugle, etc., were all played with rare talent. All the acts are nicely gowned and the entire performance is a treat.

### Dementown Doings

North side residents who have investigated state that the report that the new house at Boyd street and Ottawa avenue was to be completed this year is absolutely without foundation.

Although Hallowe'en is quite some distance away this cool, thinks it advisable to caution the young men and boys NOT to touch any of that pile of wire during their festivities.

We pipe by the Sterling Gazette that an "elevator" is being put into place on the new Lawrence building to elevate material. Evidently there must be some elevating to be done.

### ECZEMA BROKE OUT IN WATER BLISTERS

Scratched It So Hard All Sore. On Hand, Then on Legs. Cuticura Soap and Cuticura Ointment Cured in Six Weeks.

748 Congress St., Chicago, Ill.—"My eczema broke out like little water blisters. Each one was full of water and would itch until I would scratch it open, then the water would run out and it would get sore. I first got the eczema on the back of the hand and I scratched it so hard I made it all sore. Then I got it on my legs just above the ankle and above the knee.

"I used what they call — and it stopped the itch but it got worse. Then I used —. In all I had the trouble for about two years. One day I saw the advertisement of Cuticura Soap and Ointment in the paper. I wrote for a sample of Cuticura Soap and Ointment and I tried them and then bought some more. Cuticura Soap and Ointment left my skin nice and smooth. I used them for six weeks, and am now cured; the eczema left no marks." (Signed) F. W. Horrich, Oct. 19, 1912.

Although the Cuticura Soap and Ointment are most successful in the treatment of affections of the skin, scalp, hair and hands, they are also most valuable for everyday use in the toilet, bath and nursery because they promote and maintain the health of the skin and hair from infancy to age. Cuticura Soap (25c) and Cuticura Ointment (50c) are sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

women in institutions for vocational training, instead of fining them and letting them go.

Mrs. Brooks Washburne was accorded more applause than any speaker of the afternoon.

Walter Hay, circuit clerk of DeKalb county, was the next speaker, and Representative Roy D. Hunt, also of DeKalb, followed him in an attack on what he termed Governor Dunne's expensive administration.

I. F. Edwards of Dixon, recent candidate for congress, in a short speech stated that the enfranchisement of women was causing a lot of commotion in certain quarters and that he believed their votes would bring about certain things which he did not designate, to the satisfaction of the better class of people and for the final betterment of all.

Mr. Edwards was bitter in his denunciation of the republican ring, as he termed it, of which, he declared, he thanked God he had never been a part.

A. W. Rosecrans of Ashton, in a denunciation of the liquor traffic in Illinois, hoped "the saloons would be wiped out of the state" and declared his admiration for Theodore Roosevelt.

## Evening Program.

The evening crowd was a good one and between 200 and 300 people filled the Compton opera house, at the conclusion of the free motion picture show put on the streets by the merchants of Compton.

Attorney John E. Erwin of Dixon was the first speaker on the program and he gave a very graceful and pleasing talk. He jollied the ladies and roasted the men, and complimented Comptonites very profusely on their fine little town. Mr. Erwin is a very thoughtful speaker.

## Bailey Made Talk.

Elwood T. Bailey of Dixon closed the program of Compton's big day with a very entertaining, enthusiastic and inspiring speech along non-partisan lines and on general topics—religion, temperance, education, woman's work in politics, etc. He was well received and his talk was a good general finisher for the day's events.

After the speaking a dance was held in the hall.

MUST WAIT YEAR  
FOR PRIMARIES

## CANDIDATES FOR COUNTY OFFICERS WILL BE CHOSEN IN SEPTEMBER

Politicians who are to seek nominations on the tickets of their respective parties at the elections for county offices have been looking into the law to find out when the primaries are to be held.

## Primaries Next September

Many of them were of the opinion that the primaries are to be held next March as was the case at the last primary election. The law, however, makes primaries this fall in the month of September during years when no presidential election is to be held. Under the recent state primary law the date for county primaries in years when no presidential election is to be held are to be held on the first Wednesday after the second Tuesday in September. This makes the primaries for the county offices to be held for the next election fall on Sept. 10th, 1914.

## BACK TO DIXON.

E. S. Caton, formerly an employee of the Dixon waterworks, but lately of Rochelle, has returned to his old position with the Dixon company.

A great many members of congress have ideas about how newspapers should be edited, but they have never been able to get together and make the dear old Record much of a popular success.

FORMER RESIDENTS  
OF LEE PROSPERINGELMER PATTON AND PEARL DAY  
LIKE NORTH DAKOTA COUNTRY.

M. N. O'Connor of Grand Forks, N. D., a member of the firm of O'Connor Brothers, is in the city for a few days' visit. He says he read with great pleasure an article which appeared in the Harmon Items published in the Telegraph Oct. 2, in which it was related that G. F. Brooks had returned from Grand Forks, where he visited E. Patton and Pearl Day. Mr. O'Connor sold each of these parties their North Dakota land through T. J. Holahan of this city. Mr. O'Connor stated that both Mr. Patton and Mr. Day like the Red River Valley very much. He also expressed his pleasure that Mr. Day had sold \$3,000 worth of grain from the 300 acres he purchased and that if he had sold all of the grain the crop would have been valued at \$3,500 this year. Mr. Day also expects to realize a nice sum from the 53 hogs he raised this year. Dwight Day, his son, is visiting in Dixon for a few days and says they earned \$260 with their teams assisting in threshing, thereby cutting their threshing bill almost in two.

## ERECTS ELECTRIC SIGN.

The Clinton Sign company of Clinton, Ia., have erected a very fine electric sign for the Dixon Inn. It is 12 feet long and contains 122 incandescent lights. Anyone interested may secured colored sketches and estimates on signs without charge by applying to the Clinton Sign Co., 112 Fifth Ave., Clinton, Ia.

Prof. Shephard of the University of Chicago knocks "America" as a representative national song because there are no rocks and rills around Chicago to love. Why not make "frocks and frills" then?

## Ship and Fish in Collision.

A strange occurrence happened to the Elder Dempster liner Tarquah recently. Early in the morning when the ship was a half day's run from Secondee, on the gold coast, West Africa, a big fish, which the sailors described as a "sea leopard," got caught on the bow of the ship right in the middle, the head being on one side and the tail on the other. The bows of the vessel cut through the fish to the bone, holding the creature there so firmly that it could not get free. The speed of the vessel was decreased and the ship had to astern before the fish was released. The fish then came to the surface and sank.

## Dallin's Statue to a Museum.

Instead of the city of Boston, it is the Museum of Fine Arts which gets Mr. Dallin's "Appeal to the Great Spirit," after all. This move on the part of the subscribers to the fund has been actuated probably by the desire to have the statue remain in the site which it now occupies, a desire which has been quite general, but which was not regarded favorably by the Boston art commission. The present expectation is that the work will remain where it is, with a permanent pedestal, in spite of the fact that the site belittles the statue, which is one of scale with the building.

## Applying It to Religion.

"This scientific management idea," said Samuel Gompers, in an address in Boston, "won't go, because it lacks sentiment. Men are not machines. Scientific management, with its total lack of sentiment, its handling of flesh and blood as though they were steel and iron, reminds me of a little Boston boy, 'Benny,' said this boy's mother one night, 'Benny, you didn't say your prayers?' 'Didn't say my prayers?' cried Benny, with a loud laugh. 'Indeed, I did, then! Why, gracious, mother, I'm five weeks ahead!'"

## His Sight Came and Went.

A curious incident is reported from Canton, O. Christmas day Earl White, aged sixteen, and blind for many years, knelt all day by the bier of his brother, who was killed in a railroad accident, praying that God would restore his sight long enough to enable him to see the face of his dead brother. His vigil and his pleading were continued through the night and in the morning his desire was granted. His sight returned to him and he looked on the face of the one he loved. And then darkness returned.

## Room for More Such Loafers.

A grouchy citizens down in Peabody, Mass., fearing that the city of Salem may cast its pearls unwisely, takes occasion to declare that Nathaniel Hawthorne was "an idler, a loafer, a lounge." It is pretty generally agreed, however, that Hawthorne idled and loafed and lounged to considerable purpose. It's a great pity there are not more of his like—in Peabody, Mass., for instance. — Manchester Union.

## FEDERICO GAMBOA

Federico Gamboa has been nominated for the presidency of Mexico by the Catholic party. Gamboa was minister of foreign affairs in Huerta's cabinet.

## ROOSEVELT OFF TODAY

Colonel and Party Sail for South America.

Will Explore Southern Republic—1,400 Mile Journey to Head Waters of the Paraguay River.

New York, Oct. 4.—Theodore Roosevelt and party left here today for Buenos Aires, Brazil. Colonel Roosevelt will start from Buenos Aires to explore the jungles and mountain fastnesses of the South American state. The former president delivered a speech last night at a banquet given by Progressives.

Anthony Flala, the erratic explorer, whom the colonel selected to prepare the equipment and supplies for his trip, was one of the party who sailed with Roosevelt.

From Buenos Aires a 1,400-mile journey by water will be made to the head waters of the Paraguay river. Thence they will strike in Matto Grosso, a forest-covered territory intersected by water courses, in the center of Brazil.

In a little explored territory between the rivers Tapajos and Xingu, Colonel Roosevelt will penetrate where few men have gone before. Jungles abound, where bands of Indians live.

At the farewell dinner to Colonel Roosevelt in New York last night Mr. Clifford Pinchot said in part:

"Miss Kellor, Colonel Roosevelt, members of the Progressive service and of the Progressive party, men and women whose great purpose is to make our government serve our people: We are met to give Godspeed to our leader on his journey. We are here to strengthen ourselves for carrying on the good fight during the months of his absence, so that when he returns the Progressive party may be even a better instrument for the public good, even a keener weapon against the men who control this country to its hurt."

On his return from his South American trip, Colonel Roosevelt last night told the Progressives gathered to honor him on the eve of his departure his best endeavors would be extended toward the upbuilding of the party.

The party is solid, he declared, and he added that it was the firm determination of the rank and file as well as the leaders to preserve its political unity, its solidarity and integrity.

Speaking of the work he had mapped out for himself on his return, Colonel Roosevelt said: "We shall enter undaunted as a national party on another national campaign."

The colonel said that he never would rest content until every single principle enunciated by the Progressive party is put into practical operation by the nation.

"It is emphatically a fight for our country," he declared. "I would continue to fight even if I stood entirely alone."

## CRUSHES ROSARY TO BITS

Coroner's Charge Arouses Priest Slayer to Frenzy.

New York, Oct. 4.—During the examination of witnesses at the inquest into the death of Anna Ammiller not a trace of emotion crossed the face of Rev. Hans Schmidt, the priest who confessed having murdered the girl.

Coroner Feinberg's charge, however, lashed the prisoner into a fury. Jumping to his feet, his eyes blazing and his lips moving, Schmidt tore the rosary from his neck with a single sweep of his arms and before detectives could stay him had snapped it into many parts and hurled them at the newspaper men.

The jury returned its verdict in ten minutes. The jury blamed Schmidt for the girl's death.

## U. S. Ambassador Retires.

Berlin, Oct. 4.—J. G. A. Leishman's tenure of office as American ambassador to Germany came to an end today. His successor, ex-Judge Gerard, will arrive from Paris Monday morning and immediately will assume charge of the embassy.

## OBITUARY

## JULIUS J. WALTER

Julius J. Walter died at the Chandler hospital September 13th, shortly after 6 o'clock. The immediate cause of his death was the shock resulting from a severe injury to his arm, which he received when he fell from a plow and was run over by it, his wrist being nearly severed from his arm. The accident happened on Wednesday afternoon and he was taken to the Chandler hospital. All that loving hands could do was done for him but he passed away September 13, 1913. The sad intelligence was a severe shock to the community and to all who knew him. He was a kind, loving and true man, and a hard working man. Those who knew him best esteemed him most.

He was born in Brooklyn township, December 15th, 1874 and at his death was aged 39 years, 8 months and 29 days. He was the second child of Paul Walter and Dora Welch Walter. Mr. Walter worked on a farm all his life. On December 10th, 1900 he was united in marriage to Miss Lena Gerbers. They were blessed with five children, 3 boys and 2 girls. He leaves to mourn his loss besides his wife and five children, 3 boys and 2 girls. He leaves to mourn his loss beside his wife and five children, his parents, six brothers and two sisters, and other relatives and many friends.

The funeral services were held from the home of his parents. Interment was made in the German cemetery south of Compton.

## In Memoriam

Death has called a loved one from us.

One we loved with all our heart. One so kind and helpful always.

One with whom 'twas hard to part.

Though we longed to keep him with us.

The loved ones on the other shore, Claimed his soul with them in Heaven.

To be happy evermore.

We shall ever miss you, Julius.

Miss thy kind and loving face, But we know you are in Heaven.

The eternal, happy, peaceful place.

We shall try to bear life's burdens.

With the patience you have shown Through the few days of suffering.

Dearest to your God you'd grown.

No one knew him but to love him.

A true friend to every one, His reward is truly Heaven.

The greatest laurel he could have won.

## Card of Thanks

We wish to express our sincere and heartfelt thanks to many friends who so kindly assisted and comforted us at the time of the death of our dear beloved son and brother, Julius. Their kindness and sympathy will ever be remembered.

## POTATOES POOR YIELD

ACCORDING TO FARMERS

Potatoes will be a poor yield in this section of the state according to the farmers who have been digging their tubers. The drought during the early fall played havoc with the tubers, the rains coming too late to be of any material benefit.

## MRS. GEORGE REMMERS.

Hulda Witzleb was born in Erfurt, Germany, Jan. 26, 1875, and in 1891 came to Dixon where two years later she was united in marriage to Geo. Remmers of Grand Detour. They moved to a farm north of Grand Detour, where they have since resided. She leaves to mourn her loss her husband, two daughters and one son, Elsie, Gladys and Ryner, beside two brothers, Otto and Carl Witzleb of Dixon. Two sisters, Mrs. Wahl of Dixon and one residing in Germany preceded her in death.

## SAY THIRD STREET

## WOMAN TRIED SUICIDE

Physicians and officials from the sheriff's office were called to a home on Third street this afternoon by a report to the effect that a woman, the mother of several bright children, had attempted to take poison. Examination, however, failed to show that she had taken any of the drug, but there is every indication that the attempt was made and would have been successful but for the interference of the woman's mother.

Veritable Plague of Rats.

It is said that rats have nearly taken possession of Haskell's Island in Casco Bay, off Harpswell. Their paths can be seen over the banks and fields.

A sportsman who set some traps on the island, hoping to catch minks, returned in a few hours to find seven rats, some a foot long, in his traps.

Makes Artificial Coal.

Dr. F. R. Beguin, the scientist who has been conducting experiments in producing artificial coal, has, by employing a high temperature and a high pressure, changed cellulose to peat in a few hours. The same change by the process employed by nature, he states, requires 7,000,000 years.

Fetish of the Bath.

Some of our own species seem fairly to dread the touch of water. When the necessity of absolute cleanliness by means of frequent baths was being preached by a friend who had been reading Comb's Physiology, in which he had learned something of the wonders of the skin, with its millions of pores that had to be kept open for health, one of our neighbors remarked, 'Oh! that's unnatural. It's well enough to wash in a tub maybe once or twice in a year, but not to be paddling in the water all the time like a frog in a spring-hole.' Another neighbor, who prided himself on his knowledge of big words, said, with great solemnity, 'I never can believe that man is amphibious!'—John Muir, in the Atlantic.

## THIS LADY'S GOOD APPETITE

Mrs. Hansen, In a Letter From  
Mobile, Tells How She Gained It.

Mobile, Ala.—"I suffered for seven years, with womanly trouble," writes Mrs. Sigurd Hansen in a letter from this city. "I felt weak and always had a headache and was always going to the doctor. At last I was operated on, and felt better, but soon I had the same trouble."

My husband asked me to try Cardui. I felt better after the first bottle, and now, I have a good appetite and sleep well. I feel fine, and the doctor tells me I am looking better than he ever saw me."

If you are sick and miserable, and suffer from any of the pains due to womanly trouble—try Cardui.

Cardui is successful because it is composed of ingredients that have been found to act curatively on the womanly constitution.

For more than fifty years, it has been used by women of all ages, with great success. Try it. Your druggist sells it.

### Where the Jews Are.

Up to January 1, 1912, the grand total of Jews, according to official statistics, was 11,817,783. Of these 1,894,400 were in America, and 1,062,000 in New York. Elsewhere in the world, according to the Lutheran, is this distribution: "Asia, 522,635; Africa, 341,867; Australia, 17,106; and Europe, 9,342,266. Russia had 5,110,548; Austria, 1,224,899; Hungary, 851,378; Germany, 607,342; Turkey in Europe, 282,277; Roumania, 238,275; England 105,988; Holland, 105,968; France, almost 100,000; Italy, 52,115. New York city had 1,062,000; Warsaw, 204,712; Budapest, 186,047; Vienna, 146,926; London, 144,300; Odessa, 138,935; Brooklyn, more than 100,000; Berlin, 98,893; Lodz in Poland, 98,671; Chicago, 80,000; Salonica and Philadelphia, each 75,000; Paris, 70,000; Constantinople, 65,065; Jerusalem, 53,000; Kichenov, 65,000; Vilna, 63,481; Amsterdam, 50,237; Minsk, 45,000; Lemberg, 44,258; and Bucharest, 40,533.

### Curing, Not Punishing Convicts.

First cure your criminal is now the rule of corrective administration. Col. Joseph P. Scott, New York state superintendent of prisons, has long advocated this idea, old in principle but recent in practice. Hereafter, all prisoners will receive such medical and surgical treatment as may be necessary before any disciplinary attempt to correct them mentally and morally is made. The old idea of merely giving prisoners a haircut and a striped suit and then putting them to work proved inadequate to modern conditions. It is now proven expedient to give the man suffering physical penalties of his criminal life the benefit of such medical or surgical science as may fit him for more and better work in prison and give him an improved chance to make good when he again becomes a free man.

### Lessons of Street Dangers.

In these days of hustle and hurry in our busy streets, teachers might do well to give their pupils a word of warning about crossing streets. Since the advent of the automobile, street dangers seem to have increased a hundred fold. Over in England a London coroner whose court deals with a big number of accidents each year, has just expressed the opinion that the number of street accidents could be greatly decreased, if parents and school teachers would instill in the minds of the children the dangers of the streets. They ought to be educated to understand how to cross the street, he considered. Of course you will notice, it is the teachers who should teach the children. What is to be left for parents to do towards instructing their progeny?

## Between Women's Health or Suffering

The main reason why so many women suffer greatly at times is because of a run-down condition. Debility, poor circulation show in headaches, languor, nervousness and worry.

## BEECHAM'S PILLS

## SENATE ROW OVER COMMERCE COURT

Friends of Judges in Long Fight  
to Give Them Some Judicial  
Position.

### BENCH AS WHOLE DOOMED

Four Men May Be Named Circuit  
Judges Until They Retire—Job  
Goes With Them—Absent Sen-  
ators Are Summoned.

Washington, Oct. 4.—A fight to save the positions of the four remaining judges of the United States commerce court, who would be legislated out of office by the urgent deficiency appropriation bill, as it passed the house, held the senate in a continuous session, which began shortly after noon and ran until near midnight.

Twice the friends of the commerce court judges succeeded in carrying amendments that would keep them in office as additional circuit judges, but final action was prevented by parliamentary maneuvers engineered by Senator Hoke Smith.

The senate upheld the action of the house in legislating the commerce court out of existence and fixing the date for its extermination as December 31, but did not agree with the action of the senate appropriation committee in taking away from the commerce court judges their status as United States circuit judges.

Prepare Resolution for Senate.

After a long fight in the committee of the whole an amendment prepared by Senator Nelson (Republican) and Senator Walsh (Democrat) was adopted providing that the present commerce court judges should continue in office as additional circuit judges, but abdicating their positions whenever the present occupants resign or retire.

In the confusion attending many important amendments were added to the bill by affirmative votes of the senate. These included provisions for the payment of claims of Americans injured along the Mexican border, the authorization of a \$40,000 appropriation for a Red Cross building in Washington to be a memorial to northern and southern women of the Civil war, and a number of other items that had not been agreed to by the appropriations committee.

The senate, still without a quorum, finally adjourned at 11:30 o'clock. Senator Overman asked that all absent members be notified to come to Washington at once so that the senate could transact public business.

### TROOPERS QUELL RIOTERS

Twenty-Five Miners Are Arrested Following Fight.

Calumet, Mich., Oct. 4.—Twenty Lansing artillerymen under Lieutenant Ashley clashed at the Wolverine mine with several hundred strikers, who, it is said, sought vengeance as the result of the accidental injuring of the three-year-old daughter of a striker by one of the troopers. The strikers were overcome by the artillerymen and twenty-five strikers arrested.

While one of the artillerymen was riding through Wolverine the wife of a striker rushed out of her home and threw off at him. He gave chase and the woman's little daughter, who ran in front of the horse, was knocked down and injured.

A crowd collected and started for the military camp.

The troops, who were prepared, captured the leaders and dispersed the others.

### SULZER AND COUNSEL AGREE

Report That Lawyers and Governor  
Quarreled Denied.

Albany, N. Y., Oct. 4.—Rumors that Governor Sulzer and his counsel were at the parting of the ways were denied by D. Cady Herrick, chief of staff. Herrick broke his "silence" only after a story had gone broadcast that several of the attorneys would withdraw from the case Monday. "There is not a word of truth in the stories," Herrick said. "He may be having trouble with other attorneys whom he is reported to have consulted, but not with those who have appeared in court for him. We will be on hand Monday and, in so far as I know, every other day until the trial ends."

### FIRE IN A FAMOUS CHURCH

Plymouth Edifice, Brooklyn, Where  
Beecher Preached, Damaged.

New York, Oct. 4.—Fire started in Plymouth church, Brooklyn, and did about \$5,000 damage. The church is one of the most famous in Greater New York and its pulpit was once occupied by Henry Ward Beecher. The flames attacked the chapel organ and worked their way into the body of the chapel. The church was built in 1849. The present pastor is Dr. Newell Dwight Billis.

### Couple Killed by Snakes.

Mt. Vernon, Ark., Oct. 4.—Mystery concerning the death of Joe Cooper and wife was cleared when officers found they had been killed by snakes. The aged couple moved into a house on a hillside that was deserted two years ago. It stood over a snakes' den.

### Pole Star.

Any clear night look at the dipper or great bear, and in a direct line from the two first stars in the quadrilateral of this constellation measure with the eye about five times the distance between them in a straight line, and you will locate a luminary a little brighter than its neighbors; this is the Pole star. Astronomically speaking, there are no fixed stars; so-called fixed stars are supposed to be the suns of other systems of worlds, themselves performing immense revolutions through the fields of space. However, of all the bodies which scintillate in the starry night, the only one that remains motionless or seems motionless is the Pole star. At any moment of the year, day or night, its station remains unchanged. All other stars, on the contrary, turn in twenty-four hours round it taken as the center of the mighty vortex. For this reason it is the most important star to navigators in determining their course.—Christian Herald.

### Wheat in Brazil.

In the not distant future it is not unlikely that the United States and Canada will have other competition this side of the Atlantic in the world's wheat market than the Argentine Republic. It has been discovered that wheat can be cultivated with advantage in nearly all the states of Brazil. "Under the encouragement of the law of March 17, 1910," says Le Brasil Economique, of Rio de Janeiro, "a propaganda has been prosecuted by the minister of agriculture for the cultivation of wheat. The beginning was in the state of Rio Grande do Sul. All the newspapers gave their aid. The production of wheat, which in 1909 did not exceed 15,000 tons, was 30,000 tons in 1910, and since 1911 has far exceeded the latter figure. In 1912 the number of wheat growers increased and vast areas have been prepared for plantations in 1913.

### Women Telegraphers.

The old labor paper, the Revolution, in its issue of March 16, 1871, chronicled the fact that two women telegraph operators of New York had built a city line, opened offices in Broadway and other places, purchased a portion of the Manhattan company's wires, and started out to "co-operate with all the opposition lines." In 1870 there were only 350 women employed as telephone and telegraph operators, but none of them, even at that early

date, had charge of an office in San Francisco. In 1907 the number of telephone operators alone had increased to 76,638. No corresponding figures are available to cover the women telegraph operators, but as far back as 1902 the number was nearly three thousand.

### Miraculous Fish.

In a suburb of Constantinople is a Greek Catholic church dedicated to the Virgin of Baloukli. One may see there a basin fed by a spring, in which swim a number of red fish. The pious say that these fishes have a miraculous origin which dates from the epoch when Mehmet II. took Constantinople. At the end of the siege a holy man was engaged in frying fish, when it was announced that the Turks had entered the city. He responded, "That is impossible! I should only believe it if these fishes were to return to the water." Immediately the fish leaped from the frying pan and threw themselves into the water. The orthodox later constructed a church at the very place where this miracle occurred.

### Electrical Tree.

Scientists tell us that there has been discovered in the forests of India a strange plant which possesses in a very high degree astonishing electric and magnetic power. The hand that breaks a leaf from it receives instantly a shock equal to that which is produced by the conductor of an inductive coil. At a distance of 30 yards a magnetic needle is affected by it. The energy of this singular force varies, but it is most powerful when the sun is hottest, and in times of storms its intensity increases in striking proportion. One never by any chance sees a bird or an insect light on the electric plant. Nature seems to warn them that they would find their death.—Christian Herald.

### Some Cigars Are Left-Handed.

It isn't because the cigar is badly made that the wrapper sometimes comes uncurled—it is because the cigar is a left-handed one. Cigar makers must be ambidextrous. They cut the wrapper and leaf on the bias, rolling it from left to right on the filler, while the other piece is rolled with the left hand, from left to right. A nervous smoker, twisting and twirling his cigar has no trouble with a right hand one; but if it happens to be a left-hand one it may come undone.

### ARRANGEMENT OF NEST BOX

Canadian Expert Recommends Use of  
Earth or Overturned Sod, Covered  
With Straw or Chaff.

A nest can be made out of an old box about 12 inches square and six inches deep. Professor Graham of the Ontario Agricultural college recommends that "some earth or an overturned sod be placed in the bottom of the box, taking care to have the corners very full so that no eggs can roll out from the hen and get chilled. Next put on about two inches of straw or chaff; and then put a few earthenware eggs into the nest. Place the nest in some pen where nothing can disturb the hen, and put her on after dark. Feed and water must be within easy reach and a dust bath should also be convenient. If the hen is settling quietly the next day it will be safe to put the eggs under her."

Another nest box that has given considerable satisfaction, is made in three compartments. A 12 inch board cut in three four foot lengths and one used for the top, one for the back, and the other for the bottom. The partitions and ends are made of the same material cut in one foot lengths. Along the front is a four inch strip to keep in the litter. This is hinged a slatted door, which, when opened forms a platform in front of the nest. The work of filling the nests and set-

Arrangement of Nests.

ting the hen can be proceeded with as already described. These boxes may be piled one above the other.

When the hens are let off the nests to feed, the doors of the nest boxes should be closed, which compels the hens to remain on the floor until they have had a chance to feed. The hens will not return to the same nests, but this is rather likely to be of benefit than otherwise. All hens do not set at exactly the same temperature, and an occasional change averages up the temperature for all the settings of eggs.

No hen should be allowed to set, unless she is free from lice. The inaction of the bird is conducive to rapid multiplication of any lice there may be on her. These will make her irritable and a poor setter. In addition, should she bring off a hatch in such a condition, the chicks will be open to infection. Dust the hen well with flowers of sulphur or some other insect powder before setting, and again a day or two before the hatch flushes.

About the seventh day the eggs should be tested, the infertile ones removed, and the balance put back in the nests. After testing it is usually found that the eggs from four hens can be put under three. This leaves one hen with no eggs, and a new setting can be put under her.

When the chicks arrive two or three batches can be put with one hen, which leaves more hens at liberty to sit, or if there is no more hatching to be done they can be put back in the laying pens.

## POULTRY NOTES

The day before shipping live fowls, feed hard grain.

Satisfying the appetite adds greatly to the thrift of the flock.

It is estimated that five chickens will yield a pound of feathers.

Cleaning dropping boards is a chore that cannot be done too often.

Whatever interferes with growth retards and diminishes egg production.

On cool, damp, rainy nights close all the ventilating windows of the hen house.

The very first thing to do on noticing signs of illness in a bird, is to isolate it.

The best nest for laying hens is close to the floor, darkened, and easily movable.

Feed plenty of charcoal, as it is one of the best things for keeping the poultry healthy.

Eggs cannot be produced without nitrogenous food in some shape. Bones are absolutely essential.

Do not forget that your fowls need green food. If it is impossible to give them a change of yard or runs, see that they get some kind of green food during the daily feed.

## Keeping the Body in Repair

Nature intended that the body should do its own repairing—and it would do so were it not for the fact that most of us live other than a natural life.

Nature didn't intend that we should wear corsets, tight collars or shoes, nor live in badly ventilated and draughty houses, nor eat and drink some of the things that we do, nor ride in street cars when we should walk.

The consequence is that the body when it gets out of order must look for outside help to make the necessary repairs.

For weak stomachs and the indigestion or dyspepsia resulting, and the multitude of diseases following therefrom, no medicine can be more adaptable as a curative agent than DR. PIERCE'S GOLDEN MEDICAL DISCOVERY.

This famous Doctor's prescription has been recommended for over 40 years, and is today just as big a success. Restores a healthy appetite. Cleanses the blood. Strengthens the nerves. Regulates stomach and liver. Demand the original.
